MAY 7 COVID-19 VACCINATIONS AT STILLWATER BILLINGS CLINIC

May 4, 2021 – Columbus, Montana. On Friday, 5/7, from 9am- 2pm, first and second COVID-19 vaccinations will take place at Stillwater Billings Clinic, due to the Little Metra in Columbus being unavailable.

Individuals 18 years of age and older who have not received their COVID-19 vaccine or that are scheduled to receive their second dose will go to Stillwater Billings Clinic for the May 7 date only.

Moderna and Johnson and Johnson vaccines are available and will be administered on a first come first serve basis. Masking and temperature checks will be required. The COVID-19 Vaccination Team asks that you wear a short sleeve shirt for easier administration, bring insurance card, and allow for 15-minute wait time after receiving the vaccination for monitoring purposes.

“It is exciting to see that the number of those vaccinated against COVID-19 are increasing. There are still some active cases in Stillwater county so we must continue to do our part in taking preventative measures that help to slow the spread,” states Cody White, Stillwater County Public Health Medical Director.

Please continue to take all appropriate protective and preventative measures that help to slow the spread of COVID-19. This includes wearing a mask and physically distancing when around others, avoiding crowded areas, staying home if you are ill and frequently washing your hands.
